

Name: **Stack or Stuck**™

Players: 2 - 6 Age: 7+ Skills: Planning, Strategy, Decision Making, Deciphering, Analyzing

Components: 72 Cards, 1 Rule Sheet, 1 Score Mat, 12 Score Pieces

Description: Can you add a card to the cards on the table? If the card you want to play has a TRUE statement on it (in regards to the other cards on the table), you can! For instance, if there are 3 RED cards, 2 BLUE cards, 1 Yellow, and 1 GREEN on the table and your BLUE card says: MOST Red or Yellow, you can play it! That is because, of the cards shown on the table, the showing WAS/IS RED. If there were more YELLOW, that would have worked, too. So, you get to place your card with the other cards. Since it is a BLUE card, you add it to the pile of BLUE cards. NOW, if somebody else has a card that says: MOST Red or Yellow - it wouldn't work. Since now, there are equal Red and Blue! It is an ENGAGINGLY fun game!!!

A LITTLE thinking...a LOT of fun!®
