Description: It's a little logic idea that is not used too often. One analogy is a single ATOM. COMBINE with another atom and it is now a MOLECULE! Combine a MOLECULE with another MOLECULE and it's...a BIGGER molecule! That is really the gist of this game.

The key is knowing how to combine multiple TooT!s into a SINGLE larger TooT!...which can then be combined with another TooT! into a single larger TooT!...which can then...

Once you get it...you got it! FUN!

A fun brain game for kids!

A LITTLE thinking...a LOT of fun![®]
