Players: 2 - 6

Age: 7+

Skills: Planning, Strategy, Decision Making, Probability, Sequencing, Predicting,

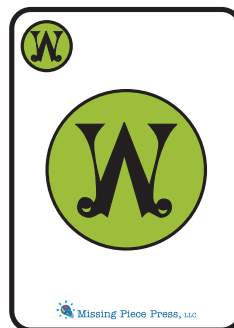

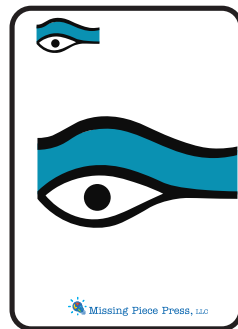

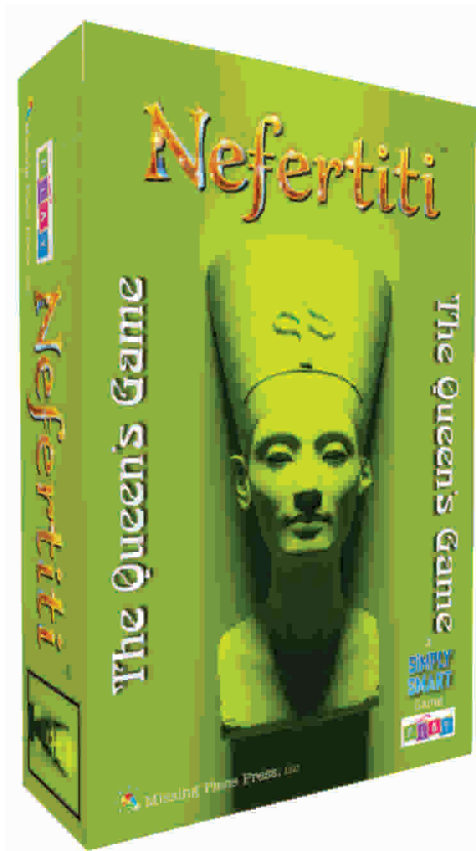

Awards:

Components: 72 Cards, 1 Rule Sheet, 1 Game Mat, 1 Die, 4 Game Pieces

Description: The Queens's Game

Played by the Egyptian Queen with stone figurines, her favorite game is now brought back to life with cards! Start with a roll of the die. Instead of putting your hand in a basket to select your pieces, just draw the same number of cards as the number shown on the die. If it is three or less, put them in a row in front of you. Hopefully you will be able to play them soon. Rolling a **4** requires you to add one card to the **PLAY** area. Roll a **5** - add two cards to the **PLAY** area. A roll of **6** adds two to the **PLAY** area and one card is given to another player to put in their play **LINE**. The remaining cards (3) go directly to your **LINE**. You **NOW** get to play the cards in your line to the play area by **MATCHING**. But, it is not your usual matching. **1** card can match one. But if there are **2** cards there - **2** cards have to be played to match the two! When all cards are gone players move on to the next sequence and end with moving on the board. This highly engaging and addicting game is great for family game night!

A LITTLE thinking...a LOT of fun!®
