**Description:** Another 5-in-a-Row game?!? Yes, BUT...you can't just place your card any where.

The **COLORED** number in the corner tells you that you **MUST** place the card *THAT* number away from *THAT* color of card.

So, if my **RED** card has a **GREEN #2** in the corner...I have to place this card **TWO** spaces away from a **GREEN** card that is on the table.

Oh, there's some thinking. But, that's what make this game **FUN!!!**
